

At the moment my scheduler control looks like this.

		9:00 AM	10:00 AM	11:00 AM	12:00 PM
		0 15 30 45	0 15 30 45	0 15 30 45	0 15 30 45
Salon 1		Emp. Y's event			
Department 1					
Employee X					
Employee Y					
Department 2					
Employee T					
Employee U					
Employee Y					
Salon 2					
Department 1					
Employee A					
Employee B					
Department 2					
Employee C					

But I want it to look like this.

		9:00 AM	10:00 AM	11:00 AM	12:00 PM				
		0 15 30 45	0 15 30 45	0 15 30 45	0 15 30 45				
Salon 1		Emp. Y's event							
Department 1									
Employee X									
Employee Y									
Department 2									
Employee T									
Employee U									
Employee Y									
Salon 2						Emp. Y's event			
Department 1									
Employee A									
Employee B									
Department 2									
Employee C									

Is this possible?
